

What:

Agronomy Summer Internship

Where:

Linn Cooperative Oil Company

City:

Newhall and Springville, IA

**Job description summary:**

Working in the field of agronomy from May-August, which could lead to potential full-time & part-time positions. Internship is primarily focused on in-field agronomy experience. Intern will primarily work to assist agronomist in their daily activities. The in-field experience gained will be crucial in building agronomic skills. Internships at both locations: Newhall & Springville.

Essential Duties and responsibilities:

- Work one-on-one with an agronomist at Linn Coop
 - Seed population/stand counts and crop staging
 - Soil sampling
 - Identification of weeds, insects, and diseases
 - Taking stalk nitrate and leaf tissue tests
 - Create detailed in-field reports for customers
 - Seed treatment and delivery of seed and/or chemicals
- Office and computer operations
- Driving tender truck if/when needed if you feel comfortable with it
- Superior customer service
- Operating a pickup truck and an ATV to and from fields
- Other agronomy duties as assigned

Competencies:

- Ability to deliver clear, concise and effective verbal and written communications to a targeted audience
- Reacts well to change and ability to be flexible
- Good communication with co-workers and customers
- Willingness to learn and listen well to superiors in order to meet the goals and tasks of the Co-Op.
